Description:
FY 2019-2023, the DLA Procurement program consists of Passenger Carrying Motor Vehicles (PCMV), Pacific Disaster Center (PDC) equipment, and Warstoppers equipment. The FY19 request includes PCMV (\$225K), PDC (\$4,508M), and Warstoppers (\$492K). The PDC request reflects a one time FY19 requirement of \$3,691M above their baseline funding levels.

PCMV replacement is required to support DLA's overseas logistics operations. DLA maintains field offices in Europe, Kuwait, Korea, England and Japan. Replacement of Agency-owned and commercially leased PCMV's with owned PCMV's is required in cases when it is less expensive to own rather than commercially lease. PCMV ownership is usually significantly less expensive than commercial leasing at overseas locations.

Pacific Disaster Center - this program is reported in accordance with Title 10, United States Code, Section 119(a)(1) in the Special Access Program Annual Report to Congress.

WARSTOPPER Program identified a requirement in FY17 for procurement funds to modernize the microcircuit surge capability for emulated legacy (no active production) microcircuits. These microcircuits are identified as critical within over a hundred weapon systems and present an industrial readiness vulnerability. The modernization plan for the surge capability will require recurring funds for four additional years of funding. An additional requirement is also identified for electron tube manufacturing equipment for surge production. Electron tubes continue to be a critical element in many weapon systems and require Government investment to ensure industry can meet wartime requirements.
